## Bi-annual Check on Swedish Control

- Postponed one year due to ECC

2

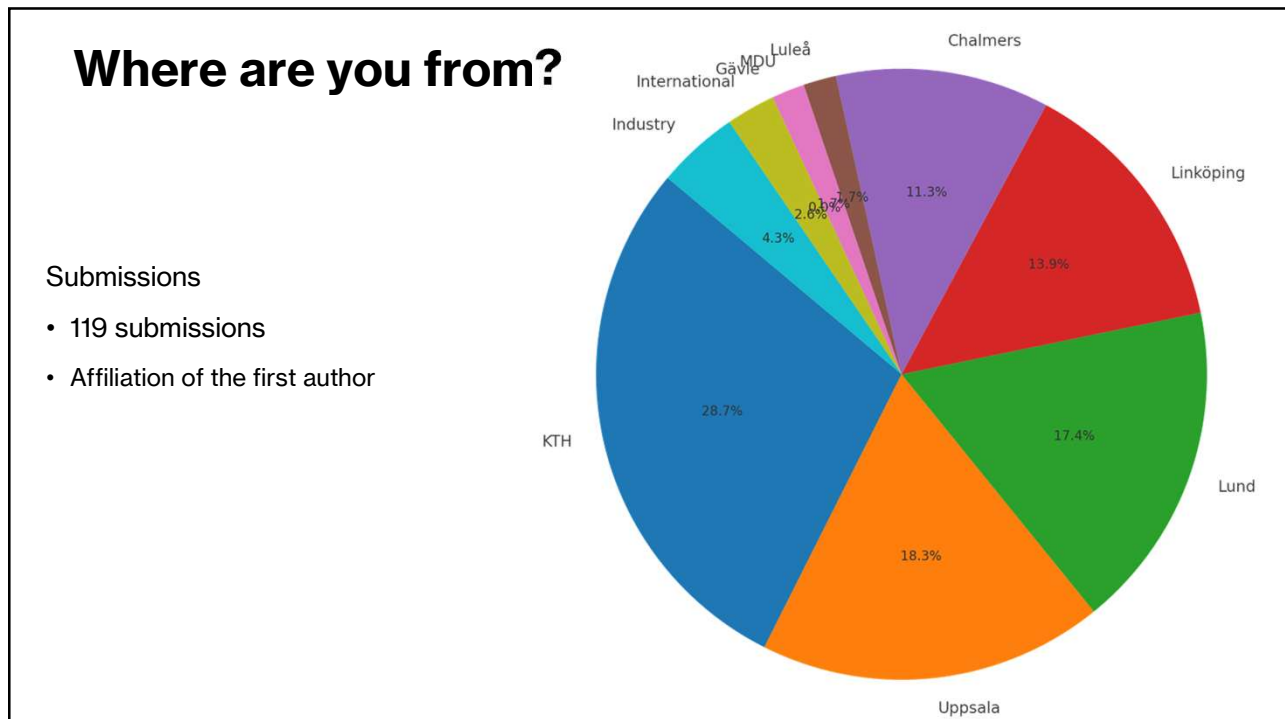

## Is it all about AI and ML?

Does not seem so:

- 9/119 papers with learning in the title
- 6/119 with data-driven in the title

But, very little on PID and process control

## Receipts

- As some you have seen the Economy division at Lund University by default only provides a registration confirmation without any VAT ("moms") information
- If you need a real receipt, you unfortunately have to send an email to Mathias Langmarker <[mathias.langmarker@eken.lu.se](mailto:mathias.langmarker@eken.lu.se)> and require that they send you one (they cannot refuse this, but it might take some time)
- Using Lund University to collect the registration fees is something that we regret a lot.
